# **Owered Future**

**CONSUMER CONNECT INITIATIVE** 

BARREN LAND, UNUSED SPACE, TERRACE TOPS, INDUSTRIAL SHEDS, AND CANAL WATERWAYS ARE ALL IDEAL LOCATIONS TO SET UP SOLAR POWER FIELDS, AND WE ARE IN THE MIDST OF A COMPLETE **SOLAR TRANSFORMATION** 

## **Energy Transformed**

Renewable sources of energy are at the center of mankind's austrainability solutions. The world of energy generation can be revolutionized by tapping into the freest form of natural energy available, the sun. There are many ideal locations for setting up solar ventures because of the 8+ months of indispensable sunfight that our country receives. Here is why the potential to generate solar energy has the power to revolutionise the entire energy industry.

TECHNICALLY INNOVATIVE

The future of energy generation or power generation lies in our ability to tap into renewable resources that can usher in a new age of electricity. Solar power generation has many technical

advancements that are happening all year round. From self-adjusting and cleaning panels, to high power generating solar chips that can weave on top of any surface that receives adequate sunlight, solar power sector its undergoing tremendous research that will eventually enable the entire planet to generate, clean and green, sustainable electricity. The innovations are such that independent research organisations, along with government bodies across the world are piling ordata favoring solar power generation as the optimum way to generate electricity. This paradigm shift has been accelerated by the success of solar plants across the nation.

HARNESSING ENERGY

Electrical energy is produced directly using solar cells or photovoltaic cells. Depending on how solar energy is tapped, converted and distributed, it

can be classified under two broad headings - passive solar energy and active solar energy. In cases where specialised technologies that use photovoltaic panels and collectors to harness solar energy are used, it is termed as active solar.

### GOVERNMENT AID

GOVERNMENT AID
Solar acreage requires one basic
component apart from a steel
structure and occasional maintenance,
sunlight. The Government given solar
subsidies directly benefit the
installation process by cutting down
on the costs of heavy equipment.
Solar plants generate enough
electricity and can be fine-tuned
according to the availability of land,
and space. With winds of change
already blowing; it's just a matter of
time, tide and sunlight along with
some lobbying efforts put in towards
making our agrarian economy shift
trom plants, to solar power plants.

#### DOMESTIC GENERATION

DOMESTIC GENERATION
You can generate solar energy by installing a generation system on your rooftop. To promote renewable energy in the state, the government is promoting the installation of a system on rooftops which can generate 0.50 kWh to 1 kWh for domestic consumption. The incident light on the solar cells causes current flow in it. Several such solar cells are cascaded to produce sufficiently large amount of current (at a low voltage) that may be useful for varied applications. The output of the solar panel is connected to a battery through a changing circuit. The amount of power that can be stored in the battery of the number of electrical gadgets that can be powered varies depending upon the size of the solar panel. The battery, tpically a 12 or 24 volt battery is connected to a sine-wave or pseudo sine-wave inverter to produce the 220 voli. AC required to drive electrical gadgets.

- · ONLINE UPS SYSTEMS 11KVA TO 800KVA
- MODULAR UPS SYSTEMS
   15KVA TO 2000KVA

## **E-AUCTION SALE NOTICE**

Notice for the sale of the assets through E-Auction is hereby given to the public in general under section 35(f) of the Insolvency and Bankruptcy Code 2016 r.w. Regulation 33 of the Liquidation Process Regulations

Date and Time of Auction	Friday, 01.10.2021 between 01:00 PM to 03:00 PM
Last Date for Submission of EMD	Wednesday, 29.09.2021 before 06:00 P.M Payable through RTGS / DD to "Anil Limited (In Liquidation)"
	having Account No. 203520110000305 and IFSC Code BKID0002035
Inspection Date & Time	Thursday, 23.09.2021 (From 11.00 AM to 5.00 PM) Contact Person: Rajendra D. Choudhary. (M: 9426623398)

Particulars	Reserve Price (Rs. in Crores.)	EMD (Rs. in Crores.)
Land bearing Survey No. 137/P, 138, 139, 140 and 141 of T.P.S. No. 12, total admeasuring 1,44,856 Sq. Mts belonging to Anil Limited located at Anil Starch Road, Bapunagar, Ahmedabad.	402.00	20.00

E-Auction will be held on "As Is Where Is Whatever There Is Without Recourse Basis". The detailed terms & conditions ,E-Auction application ,Tender Document and other details of online Auction are available on http://www.eauctions.co.in and www.sunresolution.in.For any query, contact Mr. Dixit Prajapati (M:7874138237; Email: admin@eauctions.co.in) or to the Email of the Liquidator,rdc\_rca@yahoo.com.
